MEMORANDUM FOR THE RECORD

SUBJECT: Exclusions from the Symington Ceiling

25X1A Memorandum for the Record, On reviewing same subject, dated 27 April 1972, I feel there are certain matters which should be supplemented.

- (a) At a meeting in Mr. Buzhardt's office, I do not recall that Mr. Buzhardt related that it was a WSAG decision that a ceiling increase would not be requested. It was my recollection that he was adamant that there would be no request. Further, I do not recall that Mr. Buzhardt said it had been cleared with Secretary Rogers. I do recall that he stated word would be passed to Dr. Hannah at AID.
- (b) Rather than Mr. Buzhardt saying he is hopeful there will be no ceiling for 1973, it is my recollection that Mr. Buzhardt stated that a deal had been made with Senator Stennis that there would be no Laos ceiling and in exchange the \$2.5 billion authorization for MASF would be reduced to \$2 billion. 25X1A

(c) I am not certain that I indicated that WSAG had decided that personnel costs should be excluded per advice from felt this was the proper stance. However, I did indicate that 25X1A who. in turn. discussed this subsequently with who confirmed that such costs were to be5X1A discussed it with excluded.
